Unemployment Insurance Statistics

U.S. Department of Labor
Ray Marshall, Secretary

Employment and Training Administration
Ernest G. Green
Assistant Secretary for Employment and Training

This monthly report provides data that are collected and reported under unemployment insurance programs in the 50 States, the District of Columbia, Puerto Rico, and the Virgin Islands, and under Federal programs covering Federal civilian employees and ex-servicemen. Information is given on benefit payment activities, employer contributions, appeals decisions, and disqualifications by issues; for selected industries and major occupational groups; and by claimant's age, sex, and duration of unemployment.

The data are compiled by cooperating State employment security agencies and, in some cases, come from interviews with a sample of claimants in more than 3,200 local offices of the Federal-State employment security system. Additional data may be secured from these State agencies at the addresses listed on the inside back cover.

1/ Section 240 of the Disaster Relief Act of 1970 (Public Law 91-606) provides assistance in the form of temporary income to individuals who are unemployed as a result of a major disaster. A major disaster may be any hurricane, tornado, storm, flood, high water, wind-driven water, tidal wave, earthquake, drought, fire, or other catastrophe declared by the President to warrant Federal assistance. Authority for administering this section of Disaster Relief Act of 1970 has been delegated to the Secretary of Labor who has entered into agreements with the States for the purpose of providing Disaster Unemployment Assistance (DUA) to individuals in the various States who are unemployed as a result of a major disaster. The Office of Emergency Preparedness provides federally appropriated funds for both the assistance and administrative costs of the DUA program.
